

# 2012 NFFS CATALOG of PLANS

Effective: April 7, 2012

## DEDICATED TO THE SCRATCH BUILDER

The prices in this catalog supersede all other catalogs and offers

The NFFS Plan Service provides plans to its members at low cost and a minimal profit.

We do, however, accept orders from overseas and non-members. The cost to nonmembers is an additional \$1.00 per plan. US postage is included in the price of all plans within the US. Please note: Because additional postage is required for Canadian and Overseas mailing, Canadian orders, please add \$2.00 **per plan**.

Overseas orders, please add \$3.00 **per plan**.

**Rolled plans in mailing tubes are available at an extra cost of \$8.00**

*I do not have the plans in my possession and I can not look at a plan to pass on information*

The prices in this catalog supersede all other prices and offers in previous catalogs and offerings appearing in The National Free Flight Society Digest. Because of postal rate increases as well as printing costs we have adjusted our prices accordingly. Although I have made every effort to keep the catalog error free, some typos and omissions seem to creep in. In some instances the wingspan and/or wing area are not listed, as I don't have that knowledge at my convenience.

We have added many new plans since the previous catalog. All known Cleveland Model Plans have been deleted from the list. A few plans have been lost during the transfer from paper to digital. These have been deleted as well.

Please remember this is not a full time job with me. I run two businesses first and I am a Free Flighter second and a Plan Man third. Please be patient. Our turn-around time is normally within three weeks.

Please include the Plan Number as that makes my job much easier. Also please include your email address in case I need clarification on your order.

## Thermals
