Another "How I got into F.F." Story!

This story comes to us from new Agent **Roy Stewart**. He's from Princeton, IN. He sez: "Last summer I received a complementary copy of the CIA Informer. Noticed you were asking for info regarding getting hooked on F.F."

"Well, how about 1939 in Nashville, TN! My father ran tethered race cars at the time. There were always fellows around with their cars, but some plane builders would appear. One fellow began building a 'gas job' in our basement. It was quite large, with lots of ¼" square balsa. The plane was never finished."

"I found another fellow in the neighborhood (3 years older, who still flies RC gliders). We began building gliders with all the ¼" wood. Lots of sanding required!!"

"However, one fellow began coming to our house having both the cars and engine powered planes. He informed us of a local contest to be held at a site west of Nashville. My parents took me and my gliders to the contest."

" I spent my time looking at 'huge' planes (huge, to a youngster!). Not too many planes flew that day. Too windy! I determined the planes were by Berkeley and Megow, looking at their pictures in later years. However, I did try to fly the gliders."

"My parents moved to another part of the city in 1941. A high school fellow lived in the neighborhood that flew rubber models – about the size of the Comet *Sparky*. He helped me build and fly. We would fly until the rubber broke! We didn't know about lube. We'd just scrounge more rubber! I was hooked at this point. I tried to build a Cleveland *Thermalier*, but the folding prop got me!"

"I sold my Lionel train to buy an O&R 60. (*ed. - Oof! Have you seen the prices gotten for vintage Lionel stuff nowadays??*) I tried to build a Stanzel *Intercepter*. Things did progress,

because I was getting more help from the fellow who told us of the '39 contest. I traded the O&R 60 for an O&R 23."

"My first contest (1944) was a local meet in which I entered a Scientific *Varsity*, using the O&R 23."

"I became a Navy carrier pilot after college. However, the flying continued aboard ship! I found another modeler, and together we built and flew what was to become the 'peanut' size plane, in the hangar bay!"

"Hey!! Enough of this tale!"

Many thanks, Roy!!

There is no doubt the central core of the CIA has some of the best flyers in the country as witnessed by results in the National Cup Results and representation by CIA agents on World Teams. Here are the results of the CIA Hi-Point Awards for the 2003 season:

The OT Gas Hi-Point champion participated in 9 contests. Elmer is a hard worker and flies form daylight till dusk in his familiar red competition suit. He accumulated points in 4 categories – 20 in glider, 80 in AMA Power, 330 in NosGas, and the winning total in OT Gas with 370. Congratulations, Elmer Jordan.

Surprise, surprise, the 7-time World Indoor Champion wins the Indoor Hi-Point Award with 670 points. That's 3 contests – 2 firsts and a second at the Indoor NATS, 2 firsts and a second at the Kibbie Dome, and 3 firsts and a second Under the Dome at West Baden. This is his 7th Indoor CIA Hi-Point Award. Congratulations, Jim Richmond.

Glider: For the year, Phil entered Hand Launch and Catapult 18 times and placed in the top 3 16 times. The glider champion with 540 points, Phil Sullivan.
After he gets his award.....Phil was 7th in the National Cup Glider competition with scores counting from only 5 contests.

Nostalgia Gas: Keith Fulmer entered 8 contests – 12 firsts, 4 seconds, and 6 thirds. Points accumulated, 860 for this Nostalgia Gas Champion. Keith placed 2nd in the National Cup Nostalgia Gas.

Jack Marsh flew in 8 contests: In AMA gas he did 11 firsts, 9 seconds, 4 thirds, and a National Record in 1/2A Classic on Sept. 20th. That's a winning total of 1,-020 points in AMA Gas. Add to it, a 130 in NosGas and the Open Hi-Point Champion is Jack Marsh with a grand total of 1,150 points. He finished third in the National Cup Classic Gas Category and 5th in NC AMA Gas.

Also National Cup notables from our guys: Dick Covalt, 3rd in AMA Power; Bob Mattes, 5thNostalgia Power, Gene Wicks, 3rd, Nostalgia Gas; Bob Mattes 5th, Classic Gas.
Junior – Alex Marsh, 1st, Junior Hi-Point Champion. Nostalgia Rubber – Ed Konefes, 2nd; Ed Sneed, 3rd; Paul Masterman, 10th. AMA Rubber – Chuck Markos, 1st; Dave Sechrist, 4th; Joe Williams, 6th; Ed Konefes, 10th. Glider – Tom Jones, 9th.

Congratulations to these guys.

Moe: this was prepared for Lonnie. Certainly you can use which and what you want from these facts

Dr. Phil Ammended 1-21-04!!!!!!!!!!!!!!!!!!!!!!!!!!1

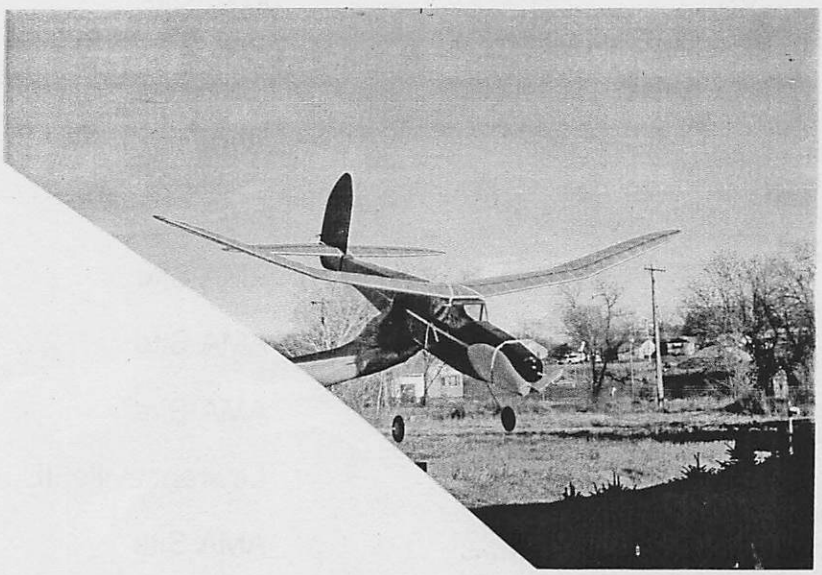

WHAT'S THE PROBLEM?

I have heard and read of some concern about the difficulty of timing the new events of Classic A-1 and A-2. The difficulty being the magnitude of timing the towing time, the release of the model, and the duration of the flight itself. If I were to use the single phase stop watch like those used for my 8th grade track team, it would be tricky. For many years the only type of timing device I have seen is the lap reset or split-time type. Granted, I fly a lot of gas models and it is necessary to have one of these to time the engine run and flight. Fifteen bucks at Radio Shack and you are in business.

Many times the launcher is the timer. As you release the model, start the watch by clicking the right button. When the model starts its flight, click the left button and go ahead and observe the flight. The watch will have the launching time on the face, e.g., 12.2. If you think you cannot remember "12," jot it down and/or orate it to the flyer. The right button stops the timing when the flight ends, e.g., 1 min. 23 seconds. Alas, subtract 12 from 83 and you have a 71 second flight. *If this poses a difficulty, a small hand-held calculator may be used.*

P. Sullivan

Many thanx to Agent **Bob Spink**, who manages to build most of our O.T. & Nos rubber 3-view offerings! He sez that the *"Challenger"* has one helluva glide!

But you'll never know the face of the model holder. She's too shy!!

2004 FREE FLIGHT SCHEDULE

* Items are final

January 17	*CIA 2003 Annual Awards Banquet Cardinal Restaurant Contact: Meredith Chamberlain, (765) 643-1885	Muncie, IN

Oct 16,17	Skyscrapers Annual	Wawayanda, NY
Dec 29-31	*King Orange International	Palm Bay, FL

The 50th King Orange International

Yes, the weather was wonderful. The site was 8 sq miles. And the 121 contestants came from many states to enjoy the numerous FF events. Dick Covalt, wife Jean, Lee Campbell, daughter Allison, and I departed the chills of the Midwest on Dec 26th toward the land of sunshine and oranges to compete in the 50th KOI. Ray Mathews was on hand as the honorary CD, replicating the chore he assumed 50 years previous.

The FMA Meeting wa on Monday night at Raddison. Discussion about having KOI always on week days as opposed to the always dates of Dec 29-31. This would preclude some brutal traffic problems encountered by many contestants. It was stop and go for me on I-95 south of Jacksonville. Ray expressed hopes of reviving interest of the youth of today in modeling.

Results from the CIA showed Mr. Covalt doing very well with firsts in B and C NosGas, a second in C Gas, and third places in A Gas and B Gas. I managed a third in HLG. In catapult, I got 2 maxes and a 42 which at last look at the board was 5th. Mr. Bob Hanford (the elder of the two) had four maxes plus a good 5th flight to win. Lee flew several events while Allison sold a bunch of Campbell's Custom Kits stuff.

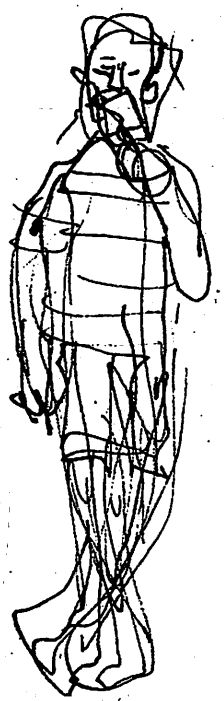

Joe Clawson's couple hundred hours of mowing sure made the place look good. The bikers sure aren't doing any good for the condition of the field. Joe was given A special Life-time NFFS Membership award at the KOI Banquet on Tuesday night for his tireless efforts for mowing and maintaining the Palm Bay Site. Off-road vehicles (2 and 4 wheel types) running their vehicles through the drainage ditches sure doesn't help. Incidentally, these are non-free flight folks.

Newspaper coverage was great as well as the 2 TV Stations that did spots on the contest. The city recently expressed their delight with the airplane activities and pledged their moral support of the KOI. This is very important.

FMA President Ron Sharpton was fantastic in his administration of the contest, emceeing the banquet, and generally overseeing the entire week of activities.

We want to thank the FMA for presenting a great contest format and especially for extending such sincere hospitality to everyone.

P. Sullivan

EASTERN U.S. FREE FLIGHT CHAMPIONSHIP EVENTS

Saturday **May 1st** **9:00 A.M. to 5:00 P.M.**

1/2A FF GAS – Cat. III, 7 sec. eng., 2 min. max (SR/OPEN).....Awards to 3rd
