Rest In Peace Dick Wood

Obituary link

Richard Leon Wood (91), born on January 10, 1935, in the small town of Pond Creek, Oklahoma, departed his life's journey on January 16, 2026, in Phoenix, Arizona. Richard's life was a remarkable journey of passion, intelligence, and wisdom, touching the lives of all who knew him and leaving an indelible mark on the world.

As the son of John Richard "Chip" Wood and Dorothy Arline Wood, who preceded him in death along with his brother Baby Wood, Richard grew up surrounded by the love and support of his family. His sisters, Barbara Davis and Linda Holle, shared in the many joyous and challenging moments that shaped their brother into the man he became.

Richard's pursuit of knowledge led him to study engineering at Oklahoma University, a testament to his keen intellect and his desire to understand the workings of the world. His academic achievements were just the beginning of a life filled with curiosity and learning.

Richard's professional life was marked by dedication and excellence. His contributions to the engineering field were significant, and his work ethic was unparalleled. But it was in his personal interests that Richard truly soared. A passionate builder and flyer of model airplanes, he traveled the country participating in flying competitions. This hobby was more than just a pastime; it was a community, a family of fellow enthusiasts with whom he forged lasting friendships and shared countless hours of joy.

Upon retirement, Richard turned his attention to the canvas, expressing his creativity through watercolor and acrylics. His artwork, much like his life, was vibrant, thoughtful, and full of emotion. He also enjoyed going to the sports events with family and friends was a fan of baseball, arena football, football, and basketball.

Prez Speaks

The Southwest Regionals was a GREAT contest! With excellent weather! In addition to being a National Cup and Americas Cup contest, it was a World Cup contest with a sanction from FAI headquarters, which was sponsored by the Tui World Cup of New Zealand.

Although it was cool in the early morning it soon warmed up due to the abundant sunshine. We had sixty contestants who flew 42 events with a total of 687 flights! Six juniors competed in FAI events with one taking first place.

Christopher Lidberg was CD for the AMA/NFFS/FAC events assisted by Mike Bower and Richard Adams for the FAC events. We had more entries in the Twin Pusher mass launch than in the past few years. The winner, Mike Fedor, had a half mile trek into the east field to retrieve his! Don DeLoach will sponsor a special event next year featuring some of Al Lidberg's scale models!

Mike Fruciano was CD for the FAI events, eight events were flown by forty two contestants, six of which were juniors. Peter Brocks assisted with the details for the Tui World Cup.

It was a busy contest for the CDs due to the number of contestants, with them doing an excellent job. Our next contest is on the 15th of February; George Morris will be the CD. See you there!

Tom

Tui World Cup / South West Regionals

Tui World Cup of New Zealand Event Report

From: Mike Fruciano

January 17-18, 2026
Webster Field, Eloy Arizona
CD: Mike Fruciano Assistant CD: K. Peter Brocks

The inaugural Tui World Cup of New Zealand attracted FAI flyers from across the United States and Canada to compete on Webster Field in Eloy Arizona. Many braved wintry travel for the warm and dry desert flying in Arizona. Top Junior competitors raised the competition level to a very high level.

On Saturday, Round 1 opened at 8:30 AM under sunny skies and cool 39 F temperatures. By Round 5 the inversion layer had lifted and a 3 knot breeze from the West brought in 74 F temperatures. Winds shifted to the typical 4-6 knots from the North for the Fly Off rounds.

F1A flyers found the 4 minute max in the first round to be a challenge leading to only 3 flyers of the 15 entered to qualify for the Fly Off rounds. Noa Goldstein needed 3 Fly Off rounds to finish in first place for F1A over second place Brian Van Nest.

F1B competition remained tight for 5 rounds and ultimately was decided in the first Fly Off round. Junior Reema Bharadwaj timed out over Larry Norval in the Fly Off to take home
the first place award. Reema stayed focused in the changing conditions to win by over 50 seconds.

F1Q was another tightly contested class with 7 out of 8 flyers making the Fly Offs. Fly Off rounds used the lower 2 Joule energy level with the winner requiring 2 rounds to become the winner by 31 seconds. Mike Richardson finished first in F1Q in an elite group of competitors.

On Sunday, Day 2 of the competition brought slightly warmer temperatures as Round 1 started at 8:30 AM. A slight overcast built throughout the day with high temperatures reaching 76 F.

F1G featured many of the top men and women flyers in the country. 4 flyers out of 8 made the first Fly Off with Jerry Fitch topping Tiffaney O Dell and Geralynn Jones in some very challenging air.

F1H had two flies but it took to the second Fly Off Round to decide a winner. Clean through six flights, Jim Parker launched into a boomer on the second Fly Off round to best Blake Jensen.

But it was F1S that provided a lot of excitement with 5 out of 8 fliers getting red stars for the first 5 rounds. Local George Morris bested Jack Murphy in the third Fly Off round for first place.

Many thanks to the Southwest Regionals team and Peter Brocks for assisting to run the event safely and swiftly making the Tui World Cup of New Zealand a fun and competitive event.

We had chamber of commerce weather at the 76th Annual Southwest Regionals Free Flight Model Airplane Championships January 17-19th. It was the mid 40's for each start and a high of only 75 on three sun filled days. Wind was only an issue the first day, about 6 mph, and only until 10:30am or so.

Several events on Saturday, featured standout competition with P-30 leading the list, Chuck Powell bested 7 other fliers for 1st with Don Bartick 2nd and John Mcgrath 3rd. In E-36 Lynn Edmonson took 1st with 6 Maxes, Don Deloch with 2nd and Frank Menano 3rd.

Sunday's highlights start with C Gas, Robert Donnelly scored 7 Maxes for 1st, Guy Menano for 2nd and Jerry Hull for 3rd. In Electric B, Charlie Morris bested 5 others and scored 5 Maxes for 1st, Jack Murphy, also 5 Maxes for 2nd, and Frank Menano for 3rd. The Twin Pusher Mass Launch featured 5 pushers with Mike Feder 1st, Chuck Powell 2nd and Mike Basta 3rd .

Monday's flying offered standouts such as B NOS, Justin Martin flew 6 Maxes for 1st , Frank Menano for 2nd and Doc Schneider for 3rd. FAC Jet Catapult featured Don Deloach besting 5 others for 1st, Chuck Powell with 2nd and Stan Buddenbohm in 3rd. There was also fun with the Provisional EP-30 with 4 flying the new class. George Morris scored 8 Maxes for 1st, Charlie Morris with 2nd, and Stan Buddenbohm in 3rd.

The contest was well attended with flyers flying from dawn until dusk most days. It was great to the familiar faces and exciting to see all the new faces.

I thank Tom Gaylor, Mike Fruciano, Peter & Brigitte, and Katheryn for their help in running the Regionals.

See you next Southwest Regionals

Christopher Lidberg,CD

Webster West flying site

Note: Motor homes and other long wheelbase vehicles should turn left (east) onto W. Phillips Road then right (south) onto Overfield Road. Please limit speed on these dirt roads to minimize dust impact to our field neighbors.
