THE HANGAR PILOT

OBSERVATIONS ON CONTEST # 3:

A new class seven record (experimental) was set by GARY MYERS with his autogyro on December 10 at the Youth Fair. His 1:20.3 broke his old record. Many new faces were in evidence, and some made their first official contest flight. Getting in that first "official" and breaking the ice is the hard part. After that your natural desire to "do better the next time" takes over and you are on your way to being hooked on this fascinating hobby. No one yet has gotten the Pich Polymer's Miler M-18 trimmed to fly right and at least 3 have built it. On the other hand, the Pietenpol Air Camper flies very well and newcomer in the Junior Flyers, KURT CONTRATA won scale with a nice 21.5 second rise off ground flight. JIM STEWART is really getting the feel of scale. He had high time of the day with 1:30.7 with his Farman Mosquito, and high total time in Peanut Scale with his Navy Bellanca. There was a first in the Peanut Scale contest-the first fly-off to break a tie was won by Doc Martin's MO-1 when Jim's Bellanca came down with lots of rubber knots bunched up on the nose hook. DAVIS GANDEES recorded his best Pilatus Porter time, nearing the 1 minute mark (57.7). The undefeated easy B and Glider champion, SPEEDY ARTHUR continued his string of victories in these events for the third straight contest.

BIG BATTLE IN ANNUAL HI-POINT STANDINGS!

Note elsewhere in this issue the incredible 4 man race in the open class with only five points separating the leaders. Also in the Junior Class MARK BAILEY leads by one point over RICH MYERS; and three other Juniors are close.
