BLIMP HANGAR RULES:

M.I.A.MA. has been privileged to be afforded the use of the Blimp Hangar leased from the DadeePort Authority by the Goodyear Tire and Rubber Co. Goodyear is permitting us to use the hangar for our monthly Park and Recreation program indoor model airplane contests.

Our appreciation is boundless, and we pledge all our efforts to see to it that this privelege is NOT abused, hence these rules:

(1) All spectators will be limited to an observation area roped off just inside the only entrance door. No wandering through the hangar. Goodyear personnel have many valuables stored therein.

(2)Contestants who bring friends are responsible for their conduct..clue them in to indoor etiquette.

(3)Contestants are not to do any climbing to retrieve models. M.I.A.M.A. will provide Helium filled balloons to retrieve hung models.

(4)No Littering.. Please take your coke bottles and bits of balsa and rubber back home with you.

(5)No Smoking... It's a WOODEN hangar.

We will use all efforts to leave the hangar in as good condition as we found it..if not better. These are not "scrooge" rules, just common sense ones. We expect all M.I.A.M.A. members to guard this privelege we have been afforded.

POST SEASON OUTDOOR SCALE MEET ON JUNE 30 (Tentative) sponsored by M.I.A.M.A

July 4,5,6 Lakehurst N.J. World Indoor Championships (And old timer meet)
Aug..First week.. NATS in Louisiana.

OUR ACTIVITY CALENDAR IS FULL ! ! ! For the next five months, in case all you hangar pilots find the world dull, there is something happening every other week end. In general we have a fly in on the 1st Sun. of the month, and a contest on the 3rd Sun. THE MEETING IN THE GROVE COMING UP ON FEB 3rd IS IMPORTANT. We will have TOM TOWLE, an aeronautical engineer of the past 50 years who knew the Wright Bros., will give a slide talk: "FROM THE WRIGHTS TO JETS WITH TOM TOWLE". Another item on the agenda that day is the planning for M.I.A.M.A.'s outdoor all scale meet on June 30 for our first outdoor meet..free flight. Time for all you hangar pilots to come out of the shade into the sunshine and turn that indoor pallor into tan. So remember Feb.#3 FLY IN at JFK Gym from 9 to 1 and meeting from 2:30 to 5:30.

MEETING (1) TOM TOWLE - 'FROM WRIGHTS TO JETS'
(2) PLANS FOR OUTDOOR SCALE EVENT
(3) REVIEW OF YEAR SO FAR, AND PLANS FOR NEXT.

Please note that all contests are planned for that super site..GOODYEAR BLIMP HANGAR.. unless otherwise notified. We hope to have some Cat.II national records for the books some day.

COVER STORY - TWO NEW FLA. STATE RECORDS !

Last month Gary Myers flew his penny plane in JFK Gym for 6:52.5 to eclipse our old record set by Dick Hardcastle and his "Phila. Penny" tandem plane. This month at JFK John Arthur wiped out his own glider record by a mile with two sensational flights, and in so doing WON A YEAR'S SUBSCRIPTION TO MODEL BUILDER MAGAZINE donated by Editor Bill Northrup. .....

AT NEXT CONTEST A YEAR'S SUBSCRIPTION TO MODEL BUILDER WILL GO TO THE WINNER OF THE EZB EVENT....THANK'S BILL. Get with it E Z B builders.. this is a fine magazine that always features a peanut plane full size plans! The anticipated glider battle did not materialize because Ric Choate, and Mike Arak -two top builders-failed to show, but Arthur was tough to beat!! His 33.1 and 34.3 sec. flights wiped out the old record by 5.4 seconds. As he gingerly placed his glider back in the box he atributed his success to "a thicker wing section, strict attention to sanding in airfoil, a great piece of balsa wood, and shit luck." Wonderful! This reporter failed to interview Gary Myers on his new penny plane record. Keep tuned for further secrets of the stars.

MEET #3 AT JFK ON "WORST DAY FOR DRIFT AND DRAFTS"

Martin launched his E Z B at the West end of the Gym and three minutes later it went into the seats in the balcony at the East end after flying in shallow circles the entire length of the gym. DID WE HAVE DRIFT ???? Dispite the wind outside and rain it was comforting to know we were having a contest. (The only other contest in town was a crap game in the Grove). Although it was Gary Myers' worst showing (One first) he maintained an iron grip on first place in annual points. LAUDERDALE CONTINGENT : A group of wetbacks from Ft. Lauderdale continue to invade M.I.A.M.A. contests.

It is rumored that hobby shop owners,charter boat captains, model draftsmen, little boys, and all manner of "pros" are invading our amateur ranks and carrying awards back across the county line. One of the invaders-ART SCHAEFER builds intirely too well but fortunately for us had no 3-views to authenticate his Stinson Voyager which he flew in scale and peanut scale. A beauty! He covered his peanut with SILKSPAN and it still flew 20 seconds. How about monocoat? HOWARD HEMINGER who likes outdoor free flight showed up with his 1st indoor plane-- a penny, but retired it to the drawing board. Where's BOB MYERS who, last year, threatened to cut a swath through hapless penny flyers?? RUSS DORSEY got his big orange Waco E going into a tie with BILL HISCOCK for 2nd in scale. He conceeded 2nd to Bill's little version of the same plane which will fly over a minute. By the way RUSS's famed peanut Bleriot is no more-- just a wad of condenser paper and balsa after a blown motor. WHERE ARE THE JUNIORS? Rick Myers and Billy Hiscock are taking turns knocking each other off. In KIT STICK class the Davidows were at it again. Joel was 4th this time! STEVE GOVE is stuck in Key Largo and can't make the contests and worry RICK MYERS anymore..Tough, Steve.

We sent four peanut scale times up to FLYING ACES postal contest, and on Jan. 20 ,may improve on these times. Ask Martin about this postal deal. What's a "NO-CAL SCALE"? No, not Metrecal , just a profile scale model Build one for next meet, and we'll send your time to Flying Aces Club.
