The Hangar Pilot Issue # 26 June 1975

Published by the Metropolitan Dade County Park and Recreation Dept. for the Miami Indoor Aircraft Model Association Club 986 Editor/Pres. Dr. John Martin 3227 Darwin St. Miami 33133 Florida.

MORE NEWS FROM ENGLAND: The June 1975 issue of AERO MODELLER has the information that the SMAE (England's AMA) has adopted the MIAMA indoor peanut rules with some modifications, and these rules are printed in this issue (June). We quote from Eric Coates' column "After the Peanut competition (at Cardington) there followed a meeting between the competitors and the judges, to determine the reaction to the Miami rules. After over an hour of earnest andsometimes heated debate it could be concluded that the Miami system of place marking was accepted as the best way of evenly dividing the static and flying points, but insufficient weight of marking was placed into the static section to cover workmanship , and coloring and marking."

A ROSTER OF THE ACTIVE MIAMA MEMBERS , We have others too.

3RD YEAR OF PARK + RECREATION PROGRAM ENDS:

At the conclusion of the third season of contest flying we of the Miami Indoor Aircraft Model Association would like to thank all those who have contributed to establishing the finest indoor club in the country which has become the envy of all those in other parts of the country who wish that they could be here with us to participate in the Park and Recreation Dept. contests. Mr. Bob Fankhauser has been behind us from the start, as has Lori,his Secretary. The publication of this Hangar Pilot, the publicity,the monthly awards are all Dade P&R contributions. The JFK Gym at Miami Dade North College has been available to us through the cooperation of Tom Lazzaro, the stadium manager, and his assistant Nick Siemasz to whom we all owe thanks for all the Fly-Ins. Then there is the good GOODYEAR crew headed up by local publicity director DOC PINGREE, and his chief SAM PENROD, who put in a lot of long Sundays out at the Opa Locka Blimp Base while we fooled around with all those toy airplanes. Sam sure has a lot of patience!! We also thank all t those who have written to us from all over the country giving us encouragement to inspire other clubs to emulate our program. WE CANNOT FORGET TO THANK THE LOCAL MODEL SHOPS WHO HAVE TAKEN THE EFFORT TO STOCK INDOOR SUPPLIES FOR OUR CONVENIENCE DESPIT THE FACT THAT THEY DO NOT MOVE WELL, OR BRING IN A LOT OF INCOME FOR THESE STORES. In particular these are ORANGE BLOSSOM HOBBIES, WARRICK CUSTOM HOBBIES in Ft. Lauderdale, and HOBBY WORLD in Suniland South Shopping Center OPEN SUNDAYS!! Lastly we salute all those model builders who took the trouble to PARTICIPATE in our contests, because, lets face it, just reading the Hangar Pilot every month is NOT going tp promote or perpetuate flying...FLYING...in this town. SUPPORT MIAMA, AND SUPPORT YOUR LOCAL HOBBY SHOPS!!

REMEMBER THAT THE FIFTEEN MIAMA MEMBERS WHO WON GOODYEAR BLIMP FLIGHTS GETA RAIN CHECK

Letters from America: June 1975

Dear Mom:

On Memorial Day I went into one of them psychodellic stores here in the Grove where there was a lot of posters saying "Love Power", "Love,Not competition","Love will prevail", "Love is the answer","Make love not war".

Gee, I got all carried away and said: "I agree, I love my country, I love America the beautiful, I love old glory, I love to hear the Star Spangled Banner."

They looked at me real funny,maw, and said: "What's with you,creep,you establishment freak. Are you some kinda red neck, you Birchite, you right wing extremeist, you Jingoist, you super patriot, you flag waver, you hard hat, you chauvanist, you ugly American you?" They talked real mean, ma, so I went away to find some love. What did I say wrong,Ma?

Your loving son,
John

REPORT ON CONTEST #7 : ROMAN RETURNS 2 STATE RECORDS TO FLORIDA. WHERE WERE YOU?

The big story in contest #7 on Sunday April 25 1976 was the fine work of Roman Szymula in setting State records in both Paper Stick, and FAI Stick to erase the records previously held By Dan Belieff of Maryland. The excellent conditions in the Goodyear hangar, aided by repairs to the windows and walls by Sam Penrod of the Goodyear crew. These repairs considerably cut down on drift, and greatly aided flying. With only one contest to go, why not come out and try these improved conditions?

EDITORIAL: KISS MIAMA GOODBYE?

Don't panic, fellow hangar pilots, MIAMA is not in danger of folding its microfilm wings, but I will not beat about the Pirelli...The county budget dept. counted the noses of the model flyers, found too few noses, and decided there weren't enough of them to warrent spending the money to print our newsletter. You will be glad to know that Dade County will now save the taxpayers at least 10 bucks a month by NOT printing the HANGAR PILOT. Please write or call to express your gratitude to YOUR county commissioner (What do you bet no one will do it?) Before anyone gets too upset(But not upset enough to call) let me hasten to explain some of the facts of life that old Harry Trueman was so fond of telling. .....

Here is a partial list of things that MIAMA club members get for FREE:

Eight days in Goodyear Blimp Hangar... Cost to [redacted] Goodyear..... $1,200.00
Cost to MIAMA $0,0000
Eight fly-ins at Miami Dade North,JFK.. Cost to County School Board..$600.00
Cost to MIAMA $0.00
Salaries to Sam Penrod, and Nick Seimasz who are Goodyear and School Board officials in charge of above facilities while we are there.
100 hours @ 4 per hr. minimum $400.00
Cost to MIAMA $0.00
Eight issues of the HANGAR PILOT.....Cost to print privately.....$325.00
What it used to cost Miama.....$104.00(Postage)
What it will now cost MIAMA....$325.00
ANNUAL TROPHIES & ENGRAVING.....$350.00 (Our major expense)
Dinners for guests and speakers $40.00

KISS MIAMA - CONT.

Time spent by Secretary and President on MIAMA matters....forget it. Peanut Scale trophies at Nats, Navy Scale trophies, and Manhattan Cabin at Nats....About 100 bucks a year. Are you beginning to get the point?

IF IT WEREN'T FOR DONATED FACILITIES AND VOLUNTEER WORKERS NOBODY COULD AFFORD TO BELONG TO MIAMA. If you add up the above expenses and see that they come to over three thousand dollars per year, and remember that MIAMA has fewer than 30 members, then it would cost everyone well over a hundred dollars a year for our hobby. Fortunately we have good folks like Dade County, and GOODYEAR TIRE AND RUBBER CO., and all you active clubsters out there that makes it all possible. We [redacted] fling our helmets in the air in salute!! (Remember the next time you buy a set of radials)

Now that we have to put out the PILOT with our own funds we have to get more loot somehow. In the past we have counted on contest entry fee for ALL our revenue. Unfortunately many people did not enter contests for the following reasons:

(1)Too busy.
(2) Broke
(3)Couldn't win anyway.
(4)Were too nervous or embarrased around so many "experts".
(5)Felt it was a rip-off- because they already HAD enough MIAMA badges and didn't want any more for monthly awards.
(6) Was really a _____ flyer, and NOT an indoor man at all. (Fill in blank

If YOU fit one or more of the above points, forget it and come out and fly and have some relaxed fun... this is a REAL inflation beater. Bring a friend and build up the membership. Haw can we get more money? Raise dues? Higher entry fees? More participation? (Right on). If you have any suggestions for other ways of raising [redacted] funds.. let us know/ 10-4
