CHRISTMAS EDITION

CONTEST #2 NOV 27 1977 J. MARTIN CD

The Delta Dart Junior event, and the tough glider competition were the highlights of Contest #2 on Nov.27 at the Blimp Hangar. Also the diminishing number of contestants despite the greater number of flyers is a puzzling phenomenon. More on this later.

Only 5 seconds separated 7th place from first in Delta Dart event won by Heather Arak over Leon Harris. Ernie Clark, Mike Arak , and Dave Linstrum officiated at this inaugural MIAMA event,and seven boys and girls built the models provided by Ernie, and helped by Roman, and Duke. The prizes for this event, and for three meets to come,were donated by Orange Blossom Hobbies thanks to Les McDonald. They won some great kits and supplies. Come out to help and bring a kid along.

Mike Arak was leading the glider competition until the last 5 minutes when he was beaten out by one second by John Arthur. Only a few seconds back was Blaine Miller(3rd),who had the best glider flight of the day, unfortunately--unofficial.

Not satisfied with the complexity of his twin engined peanuts, Doc Martin was flying his tri-motored Rohrbach-Roland transport. After a full day trying to trim this sled, Martin has some advice for those wanting to build this plane...FORGET IT.

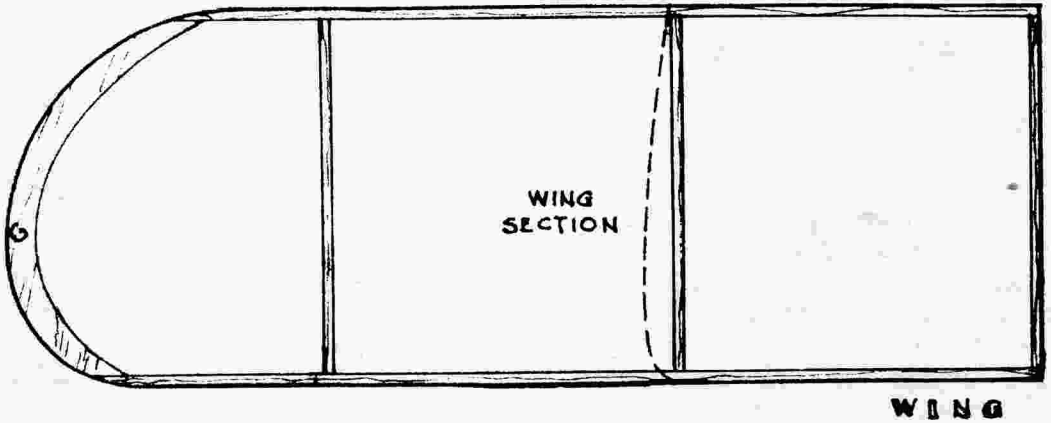

FINANCING MIAMA: It is a trend. The monthly meets are better attended than ever before, but fewer and fewer people are entering the contests. The air is full of all sorts of biplanes and wings and funny looking flying things and everyone is having a ball. Unfortunately our club was set up to get most of its operating revenue from entry fees at the contests. Last year we had at least 15 per contest and this year it has been 10 or less despite a bigger crowd of flyers. It is probably because we lost our Fly-In site at JFK Gym and the Fun-Flyers come out to the meets. Nothing wrong with that.

CLUB MEETING DECISION: To help solve the club's financial plight, at the meeting after the meet we decided to PASS THE HAT at future meets to the non-entrants and ask for $2.00 per fun flyer at the Hangar, and $1.00 per flying Junior. Not really a bad fee for 8 hours of fun. We hope this does not discourage anyone. In fact we hope some of you non-contest types who are reading this will come out and join the fun for a lousy 2 bucks. Just be sure you bring light indoor contest type models, and not flying bricks. We can't have all-wood ROG's bashing into 1 gram Easy-B's.

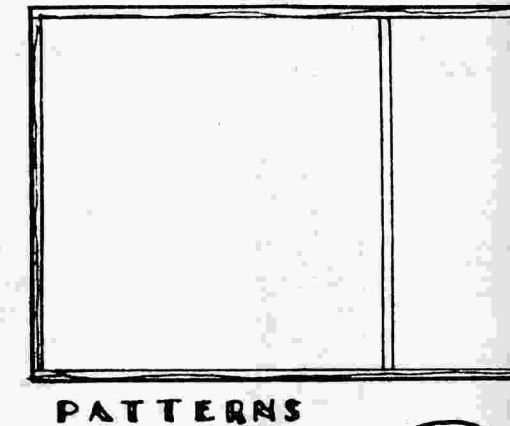

NEXT MEET: SUN DEC 18TH 9 TO 5 OPA LOCKA

Come early and help with the Delta Dart building program!

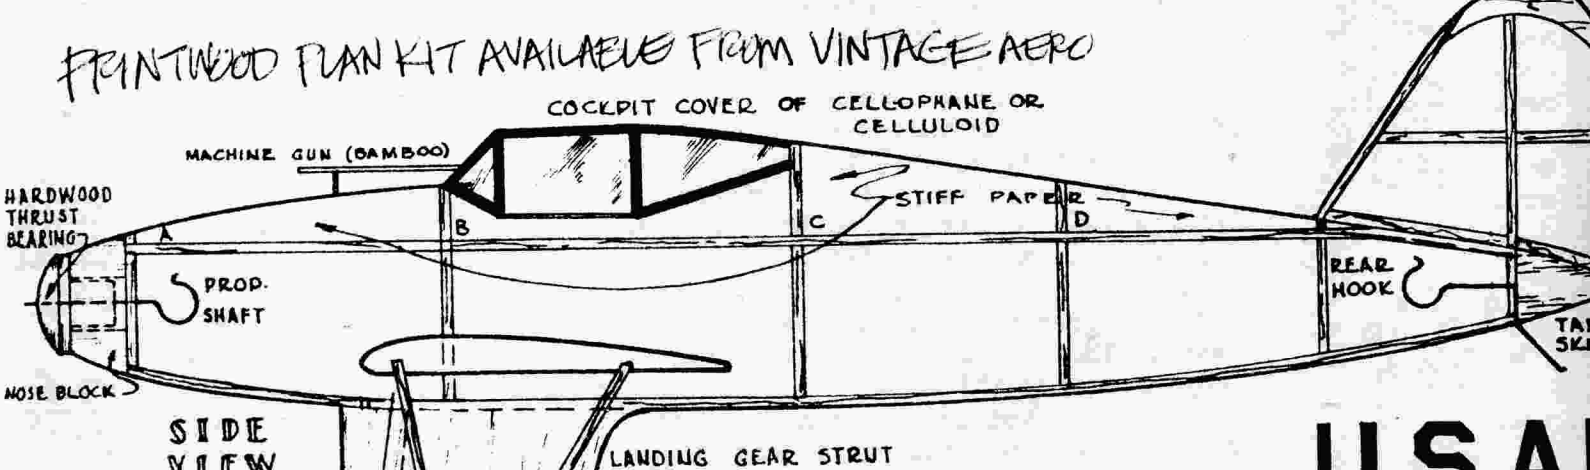

PRIZES FROM ORANGE BLOSSOM HOBBY SHOP THANKS, LES!
