NFFS PLANS CATALOG
DEDICATED TO THE SCRATCH BUILDER

The NFFS Plan Service provides plans to members and modelers around the world at low cost and minimal profit to the Society.

Plans ordered as digital downloads may be downloaded from a link in the email order confirmation or from your NFFS account.

Plans that are ordered as prints will be mailed folded in an envelope unless the customer requests that they be rolled and mailed in a tube. There will be an additional $8.00 charge for plans that are rolled and mailed in a tube.

Postage for printed plans-

US postage is $3.00 per plan
International orders are $8 per plan

Our processing time for orders is normally within five business days.

I do not have the plans in my possession and I cannot look at a plan to relay information

If ordering by mail, please include the plan number (left hand column), and your email address in case I may need clarification of your order.

Please remember that this is a volunteer position and have patience.
